W&H Dentalwerk
Bürmoos

W&H Sterilization
Brusaporto

The stakes are high. We are working with people.

Healthy development occurs when action is taken in advance. This applies for prophylaxis and periodontology just as it does for W&H: after all, as a family-owned company, we have been operating with the appropriate far-sightedness for generations.

The secret to our success: W&H has always focussed on people – regardless of whether they are partners, customers, patients or employees. It would only be natural for you now to ask critically: Is that really put into practice? What we suggest: Put us to the test!

People have Priority

W&H at a glance

- > Head office in Austria
- > 1000 employees worldwide
- > 80 teams
- > Established in Berlin in 1890 by Jean Weber and Hugo Hampel
- > 3 production facilities
- > 19 subsidiaries in Europe and Asia
- > Export share over 95%

PEOPLE HAVE PRIORITY

Whatever happens:

With W&H prophylactic and periodontic products
you are always prepared.

Now at your dental supplier or at wh.com

»Today we can say to the patient that tooth scaling is not a painful treatment.«

Dr. Jure Robic,
dentist, Slovenia

»Tigon's technology takes everything into account – the result is increased patient comfort and more relaxed working for the dentist.«

Babette Mc Laren-Thomson,
dental assistant, Germany

»The delicate characteristics of the tips guarantee a minimally invasive procedure. The Pyon 2 makes easy work of what is often not possible by hand.«

Tania Eberle,
dental hygienist, Germany

Your advantages at a glance

Tigon+ Piezo Scaler

The patient's best friend

Simple, safe and relaxing. The piezo scaler Tigon+ facilitates your daily work processes considerably and your patient remains completely relaxed during the treatment.

Very gentle thanks to temperaturecontrolled liquid
Even sensitive teeth and gums are no longer irritated.

Safe treatment thanks to three preset power modes
Power-Basic-Smooth – you can set the scaler power to suit your preferences.

Five different treatment options
The navigation tooth on the display shows which of the five programmes you are currently using.

Handpiece with 5x Ring LED
for optimal lighting conditions.

Perfectly coordinated tip range
For prophylaxis and periodontology, endodontics, implantology and restoration.

Multifunctional foot control
Simple operation so you can concentrate on your patient.

Tigon Piezo Scaler

Perfection made easy

User-friendly, compact and easy to use.

The Tigon has a range of practical advantages for daily use.

Easy to use

The scaler power and coolant flow rate can be varied using the buttons.

Handpiece with 5x Ring LED

Perfect lighting conditions and the same visual perception as with daylight.

Perfectly coordinated tip range

For prophylaxis and periodontology, endodontics, implantology and restoration.

400 ml coolant tank

Scale with 50 ml intervals so you can mix the rinsing liquids directly in the coolant tank.

Tray and handpiece holder

The tray for your instruments can be thermo washer disinfected and sterilized.

Ergonomically formed handpiece

For safe working without fatigue.

Pyon 2 Piezo Scaler

Easy to use, top results

High-quality, ergonomically designed and safe to use. The handpiece with five LEDs guarantees fatigue-free working with a considerably larger illuminated field.

Five LEDs

Robust and sterilizable light sources guarantee optimal illumination. Significantly longer life than conventional light sources.

Two versions

The Pyon 2 handpiece is available with a 5x Ring LED or without light.

Large tip range

Best results in endodontics, prophylaxis, periodontology and micropreparation.

The ergonomic design

of the handpiece and its light weight allows you to work for longer without tiring.

Separable

The Pyon 2 handpiece can be taken apart, is easy to clean, can be sterilized and is thermo washer disinfectable.

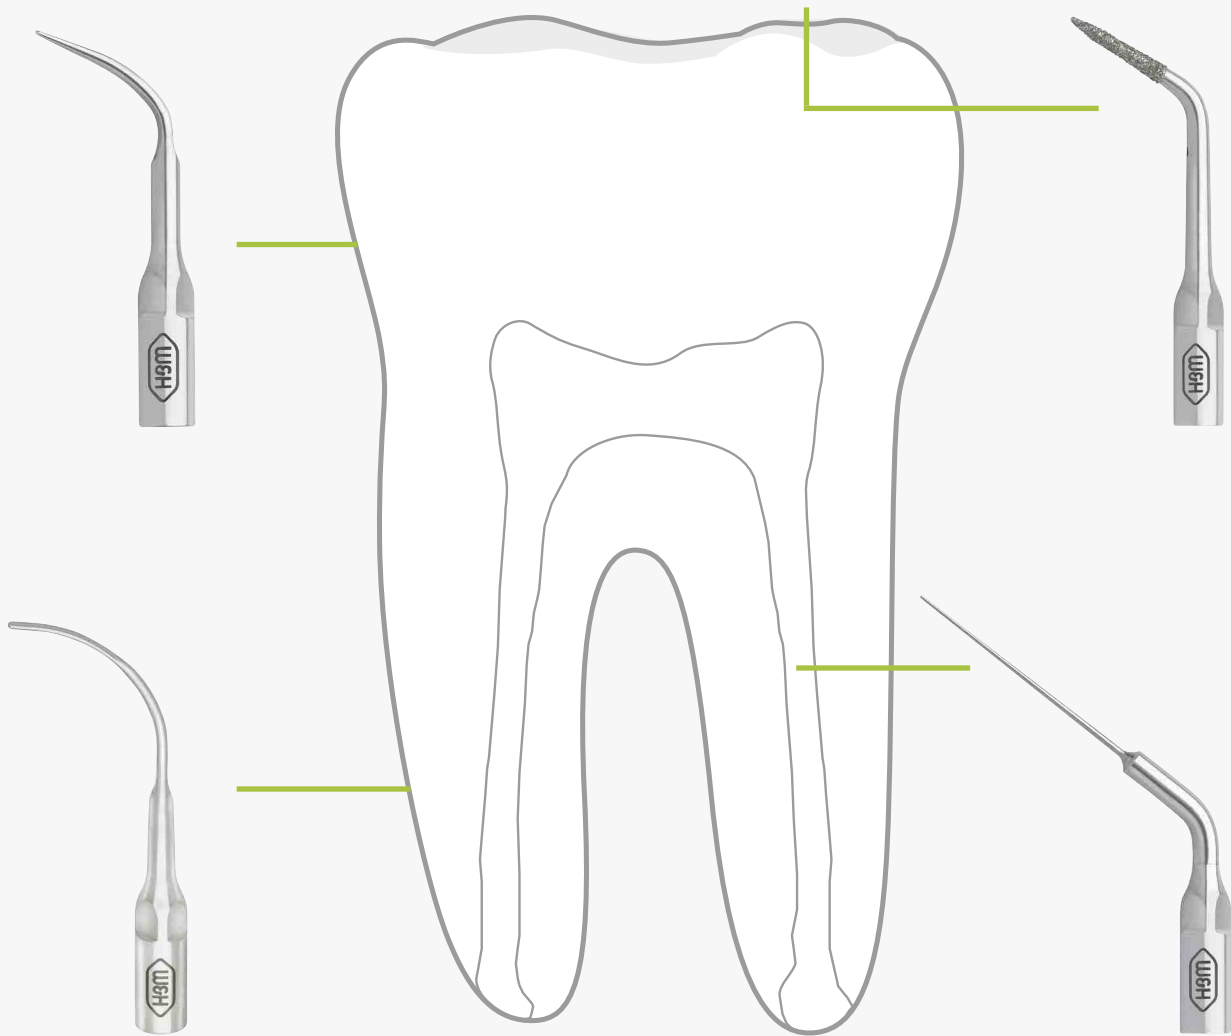

Piezo built-in kit

For installation in your existing dental unit.

Piezo tips

Tip changer

Restoration

Universal

Periodontology

Endodontics

Compact, user-friendly, safe

Compact, high-quality tip system. 22 universal and special tips, perfectly coordinated for the requirements of the respective application areas and individual treatment steps. All W&H tips can be thermo washer disinfected and sterilized.

Universal tips and implant clean tip
1U, 2U, 3U, 4U, 1I Implant

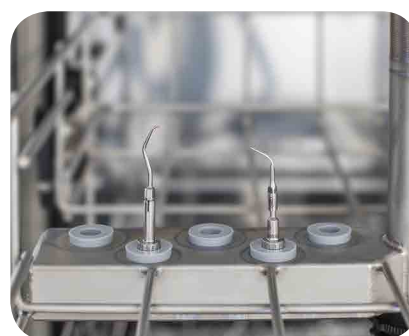

Periodontal tips
1P, 3Pr/3PI, 4P, 5Pr/5PI, 5P

Restoration tips
1R, 2R, 3Rm, 3Rd

Endo tips
1E, 2E, 3E, 4E, 5E, 6E

W&H adaptor set
The W&H adaptor set makes it possible for you to clean and disinfect the tips automatically using a validated procedure in the thermo washer disinfector – inside and outside.

Proxeo straight and contra-angle handpieces

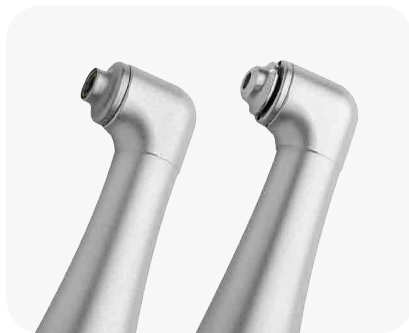

For a beaming smile

Compact and simple. Proxeo, the contra-angle handpiece for cleaning, polishing and fluoridation. The most important advantages: its small head with the special sealing system, which prevents any polishing paste from entering.

Long life and hygienic

Long service life with special sealing system. Prevents penetration of paste or particles resulting from treatment.

Best view

A small contra-angle handpiece head ensures an excellent view of treatment sites – even in the distal region.

Incredibly adjustable

The UNIVERSAL contra-angle handpiece can be used for all standard screw-in caps, brushes and Snap-On adaptors.

Versatile and flexible

YOUNG system – can be used for YOUNG screw-in caps and brushes. The sealing effect is renewed every time the cap is changed, which ensures maximum hygiene.

Simply fast

The WP-66 M contra-angle handpiece with push-button chucking system is compatible with all cups, brushes and Snap-On adaptors with 2.35 mm shaft.

User-friendly and hygiene-friendly

The straight handpiece for all disposable contra-angle handpieces with plastic shaft, Doriot system. The complete contra-angle handpiece is removed after use.

Proxeo air scaler

Prophylaxis with style

Fast, gentle, powerful. The air-driven scaler with the integrated spray and two large optic outlets is ideal for the removal of plaque and calculus as well as cleaning root surfaces. The result: your patients feel better in general and more self-confident thanks to their clean teeth surfaces.

Stepless regulation

The powerful, controlled deployment of the power can be adjusted to suit the application in question using the power regulator.

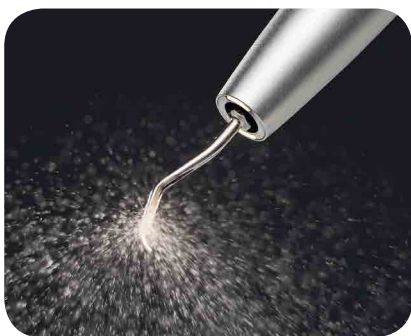

Large optic outlets

Two large optic outlets provide perfect illumination of the treatment site.

Efficient range of tips

The combination of the scaler with the tip range is the ideal basis for perfect results.

Integrated spray

The integrated spray continuously cools the treatment site and simultaneously washes away the abraded microparticles and deposits.

First-class hygiene

Their smooth surface means that the instruments are easy to clean and can be both thermo washer disinfected and sterilized.

W&H adaptor set

The W&H adaptor set makes it possible for you to clean and disinfect the tips automatically using a validated procedure in the thermo washer disinfector – inside and outside.

Tigon+ Piezo Scaler

Type:	PA-123 / PA-115
Mains voltage:	220 – 240 V / 110 – 130 V
Rated current:	0.1 – 1.6 A / 0.1 – 2.5 A
Permissible voltage fluctuation:	± 10%
Frequency:	50 – 60 KHz
Max. output power to handpiece under load (ultrasonic):	10 W
Length of handpiece cable:	1.8 m
Height / width / depth:	178 x 276.5 x 300 mm
Foot control:	S-N1, C-NF
Weight:	3.9 kg

Tigon Piezo Scaler

Type:	PB-323 / PB-315
Mains voltage:	220 – 240 V / 110 – 130 V
